

## CAPABILITY STATEMENT

“We believe climate control is part of the bigger picture when it comes to the overall performance of your building. Manage it effectively and your building will look after you with a stronger asset value, improved efficiencies and greater potential for comfortable and long-term tenancies”

## COMPANY PROFILE

### Reputable Mechanical Services

AC Hall Airconditioning is a building services contractor specialising in the design, installation, service and maintenance of building management and air conditioning systems. We are able to provide building energy audits and system design reviews. With our in-house engineering, drafting, installation and service departments we deliver value through optimized solutions and measurable benefits that meet our clients needs and exceeds their expectations.

The office of AC Hall Airconditioning is located in Springvale and incorporates a showroom, office, fully equipped factory and workshop, loading facilities at rear of the premises, and a design facilities area to amend project documentation to ensure that the most recent client requirements are incorporated into the documentation.

AC Hall Airconditioning is a proud member of the Airconditioning Mechanical Contractors Association (AMCA). We are an active part of the industry and keep up to date with all legislative, standards, health & safety and environmental issues

### Our Vision

To be recognised as the leading mechanical services specialist in service, maintenance and retro fit sectors.

### Our Mission

To expand our reputation for providing premium mechanical services design, installation, service and maintenance

To develop long term relationships with our clients and network partners through superior engineering, installation and service maintenance.

## OUR PEOPLE AND VALUES

### Our People

At ACHall, we believe that our business is about helping people. We're here to collaborate and build relationships, with our clients and across ACHall.

Our people are committed to helping clients manage their mechanical services installations. In doing this, we've created a culture of responsiveness and respect that applies across all of our relationships.

For our people, it's a culture that works in and out of the office. Working together and giving back to our clients.

For our clients, it's about being a trusted mechanical services expert who will grow with their business.

### Our Values

For over 20 years we have been a key player in providing quality commercial mechanical services to the building industry.

We are a values driven organisation and actively seek people who share our values and aspire to deliver results through living our values day in / day out. At every level our people make a difference to our success , they are driven by achieving value based outcomes.
